

SERVICE DOOR AIR CURTAINS

AN INVISIBLE PROTECTIVE BARRIER FOR YOUR BUSINESS

SANITATION CERTIFIED HIGH PERFORMANCE 7

Quikserv air curtains are designed to produce a quiet, yet high volume and high velocity stream of air to help guard your building from insects, fumes, dust, odors, and other contaminants when used over service doors and all other building openings. The units are ideal for interior installations and come with a white casing to suit any application.

KEEPS OUT DUST, AIRBORNE PARTICLES & GERMS & FLYING INSECTS

The air curtain works as an invisible barrier to protect the interior of your building and deter the entrance of all types of contaminants.

PREVENTS CARBON MONOXIDE FROM ENTERING THE KITCHEN

Protect indoor air quality and create a healthier, more sanitized environment by deterring the entrance of fumes from entering the kitchen area.

LOWERS ENERGY COSTS

Keep outside air from entering the restaurant when the service door is open to better control heating and cooling costs in the building.

DECREASES EMPLOYEE TURNOVER

Increase employee wellbeing and comfort by deterring the entrance of fumes and extreme hot or cold air.

EASY TO OPERATE & MAINTAIN

Simple to install and requires little maintenance. The unit comes with a wall mounting plate and a pair of support brackets with fasteners.

HOW AN AIR CURTAIN WORKS

For the most effective results, mount air curtain directly above and as close as possible to the service door, without interfering with the operation of the door or blocking the opening.

ALL QUIKSERV PRODUCTS ARE SHIPPED FULLY-ASSEMBLED AND READY TO INSTALL.
